

HFA-Korea Chapter Roundtable Event in Seoul, Korea on May 23, 2017 Summary by Raymond Kang, HFA's Co-Director of Korea Chapter

An independent HFA-Korea Hedge Fund Roundtable event was held on 5/23/17. CAIA-Korea was our event partner and supported marketing effort through their CAIA members. Once again, Yulchon was our event sponsor and provided a great venue at their law firm.

Approx 30 hedge funds and affiliated industry specialists attended the event to discuss "Generating alpha through navigating global market volatility". It was moderate in interactive format by Raymond Kang, Glenn Toth, and Robert Kim and shared many great ideas on how to generate alpha and manage risk in volatile market. We also discussed each fund manager's investment philosophy and methodology. In fall of 2017, we plan on having a join hedge fund event with ASK in New York.
